

COMPETITION ASPECT: POEM

‘Peace peace peace’

All we need is peace

Long lasting peace.

Peace from within and peace from above

Self-respect and love for one another

For peace frees and unite

We all need peace

We now live in doubts and fears

We now sleep with our eyes open

Wondering how the future will Look like

All we need is peace

We face a lot of troubles and prosecutions

Lots of innocent blood sheds

High rates of hunger and Malnutrition

Lockdown and ghost town every day

Peace oh peace

A building force for national integration and unity

Come and take control over my homeland

And make it a place to be

We need peace

We want peace

Peace in Cameroon

Peace in Africa

Peace in the world
