\*After being trained in Foubot by \_Change Communications\_ , one can not but submit that it has left an everlasting impact in my mindset and life.

After this training, some of the impacts are as follows;

☞ I have understood the dangers of misusing the social medias.

☞ My posts, comments and likes on Facebook matters alot. They inform my friends and viewers my thoughts concerning any given situation. Therefore, I have resolved not to post and forward as received anyhow. I now take calculated steps before liking or commenting on other's post. This has helped me not to be seen as a perpetrator or threator in any conflict.

☞ Change Communications has impacted and reinforced in me the mindset of an ambassador of peace anywhere I go😊. My closed ones and neighbors can testify the peaceful atmosphere I carry 🙏❤️🙏🙏🙏🙏🙏.

☞ To settle on a point, Change Communications has pruned my view of the anglophone crises. Peace is better than war. Negotiation is better than querelling.🙏🙏

🙏🙏 What more can I say? 🙏🙏♂️🙏🙏 In a nutshell, PEACE is a watch word in my life. Words can't fully express the transformation I have gotten from Change Communications. Indeed, as the name stipulates, my communication has changed. God bless Change Communications!!! 🙏🙏
